QUESTION 105

When using range attribute-based pricing, where do you specify the values for each range?

Note: This question displayed answer options in random order when taking this Test.
* Pricing plan step parameters
* Vlocity Picklists
* Columns in the RangeAttributePricingMatrix
* JSONAttribute field

QUESTION 106

What is the CpqAppHandler method to use when you need to create an order?
* getCart
* newCart

* createCart
* postCart

QUESTION 107

Felix is the Vlocity CPQ Administrator, and he’s creating a new product bundle that includes a child product. There can only be one child product at a time in the bundle; it must be added automatically to the cart along with the parent product; and users should be prevented from deleting it. What is the easiest way for Felix to do this?

Note: This question displayed answer options in random order when taking this Test.
* To create a child product with a cardinality of 1, 1, 1
* To create an Auto-Add product configuration rule and a Requires product configuration rule
* To set the Auto-Add and No Delete flags
* To create a configuration context rule

QUESTION 108

What is the purpose of the Collapse Hierarchy flag when defining a product bundle?

Note: This question displayed answer options in random order when taking this Test.
* Enables a Search Item dialog for the product bundle in the cart line items pane
* Collapses the product hierarchy data key value pairs, in order to improve performance for very large bundles
* Allows the product to inherit the parent product’s cardinality
* Restricts the product from retrieving cardinality settings from any linked object types

QUESTION 109

A product manager wants to create a product bundle that can only be ordered between January 5th and January 31st.

How should the developer configure the product bundle to meet this requirement?
* Set the Fulfillment Start Date to January 4, Selling Start Date to January 5, and the End at life Date February 1
* Set the Fulfillment Start Date to January 5 and the End of Life Date to January 31
* Set the Selling Start Date to January 5 and the Selling End Date to January 31
* Enable the Active property on January 5 and disable the Active property on January 31

QUESTION 110

If you want the user to select a value for a product attribute during order capture, what attribute metadata flag must be set via Vlocity Product Console?

Note: This question displayed answer options in random order when taking this Test.
* Run-time Configurable
* Required
* Has Rule
* Has Attribute

QUESTION 111

Document sections within a Vlocity Document Template can be conditionally included based on which two items?

Note: This question displayed answer options in random order when taking this Test.
* Products
* Advanced Entity Filters
* Merge codes
* Browser Version

QUESTION 112

Why would you make the time plan of a child product different from that of the promotion?

Note: This question displayed answer options in random order when taking this Test.
* The child product is available only in limited quantities.
* The discount for a child product ends before the promotion’s subscription ends.
* The billing system for that child product is different from other child products in the promotion.
* The price of the child product is on a different price list.

QUESTION 113

Use the Add Mode and Default Quantity fields only for auto-add or auto-replace product relationships.
* True
* False

QUESTION 114

What type of inheritance architecture do Vlocity object types use?

Note: This question displayed answer options in random order when taking this Test.
* IS-A inheritance architecture
* HAS-A inheritance architecture
* Hybrid (Virtual) inheritance architecture
* Protected (Private) inheritance architecture

QUESTION 115

Product images can either be URLs to online images or files that are uploaded to Documents.
* True
* False

QUESTION 116

How are promotions applied to an order in Vlocity Cart?
* By clicking on Add to Cart for a promotion in the promotions list
* Automatically using context rules
* By running the Promotion Hierarchy Batch job
* By clicking the Take me there configuration icon

QUESTION 117

Felix is the Vlocity CPQ Administrator, and he’s been given specifications for a new version of a wearable tech product that currently exists in his product catalog. Looking closely at the specs, he realizes that the only difference in the new release is that

they’ve changed the available colors. How should he model this product in Vlocity EPC?

Note: This question displayed answer options in random order when taking this Test.
* He should create a new color picklist, and when he creates the new product entry, he can override the attribute picklist that is inherited from its Wearable object type.
* He should modify the existing color picklist assigned to the existing Wearable object type, which will allow the new color choices to be dynamically inherited.
* He should create a new Wearable object subtype for the new version of the product, and then link the existing color attribute to a new color picklist.
* He should create a new color picklist and a new color attribute, and then assign them to the new product when he creates it.

QUESTION 118

A price list: (Choose THREE)

Note: This question displayed answer options in random order when taking this Test.
* Is always associated with a price book.
* Is used to create pricing variables.
* Contains price list entries.
* Can be a parent price list or child price list.
* Is the same as a price book.

QUESTION 119

In a Guided Selling interaction, how could you retrieve products filtered by object type?

Note: This question displayed answer options in random order when taking this Test.
* Add a reusable OmniScript
* Use a text query to find the object type
* Use the Type field of Salesforce
* Use a DataRaptor to create a filter

QUESTION 120

The “Take Me There” icon in Vlocity Cart does what?

Note: This question displayed answer options in random order when taking this Test.
* Returns the user to the Order Detail page to correct configuration errors
* Navigates the user to the Line Item details Modal and highlights lines that require configuration
* Takes the user to the Product Catalog
* Opens the Price List associated with the cart line items

QUESTION 121

What is the minimum amount of space that you should allocate for the CPQPartition?

Note: This question displayed answer options in random order when taking this Test.
* 10 MB
* 100 MB
* 1GB

* 0MB, since you can disable the CPQPartition.

QUESTION 122

In Vlocity Context Rules, what is a context mapping?

Note: This question displayed answer options in random order when taking this Test.
* a link to data stored in sObjects, calculated using a function, or typed in during design-time
* A variable that stores rule condition values
* The relational path from a root sObject, such as an Order, to related sObjects, such as Account
* A multi-dimensional array of sObject data

QUESTION 123

Felix, the CPQ administrator, needs to ensure that when gold SLA customers order the Installation service product, the Installation Service product’s service level attribute is set to “Full Service.” What type of rule can he use to do that?

Note: This question displayed answer options in random order when taking this Test.
* An advanced rule of type Configuration that includes an entity filter on Account.SLA and a product relationship of type Modify Attributes
* A context rule with a context mapping that evaluates the Account.SLA and a function to modify attributes
* An advanced rule of type Eligibility that includes an entity filter on Account.SLA and a product relationship of type Auto Add.
* A context rule with a context dimension that invokes a function to modify attributes on the line item with a context mapping on Account.SLA

QUESTION 124

What can you set using the cardinality of a promotion’s child product? (Choose THREE) Note: This question displayed answer options in random order when taking this Test.
* The minimum amount of the product that can be purchased
* The maximum amount of the product that can be purchased
* Whether the price of the product rolls up into the total for the promotion
* Whether the product is optional for purchase

QUESTION 125

You can apply context rules to order line Items.
* True
* False
