## 2022 Realistic H13-821\_V2.0-ENU Dumps Exam Tips Test Pdf Exam Material [Q270-Q286]

2022 Realistic H13-821\_V2.0-ENU Dumps Exam Tips Test Pdf Exam Material  
Powerful H13-821\_V2.0-ENU PDF Dumps for H13-821\_V2.0-ENU Questions

### NEW QUESTION 270

According to the definition of CNCF, which of the following options are representative technology of cloud native? (Multiple choice)

- \* Microservices
- \* Container
- \* Declarative API
- \* Service grid
- \* Infrastructure automation

### NEW QUESTION 271

Which of the following options can implement offline VMware virtualization environment backup data to the cloud?

- \* Cloud server backup CSBS
- \* Cloud hard disk service EVS
- \* Dedicated distributed storage service DSS
- \* Cloud backup service CBR

#### **NEW QUESTION 272**

What are the deployment methods supported by the microservice engine CSE? (Multiple choice)

- \* Manual deployment
- \* Automatic deployment to third-party cloud platforms
- \* Pipeline one-click deployment
- \* Orchestration and deployment based on AOS applications

#### **NEW QUESTION 273**

Which of the following is a product provided by Huawei on the side of IoT terminal equipment?

- \* Smart devices
- \* Development board
- \* Module
- \* Chip

#### **NEW QUESTION 274**

HUAWEI CLOUD DevCloud supports agile project management processes and provides mainstream agile project management process templates. Which of the following are included? (Multiple choice)

- \* Lightweight board
- \* Scrum
- \* Waterfall
- \* IMI

#### **NEW QUESTION 275**

Container image is a standard format for container application publishing. Users can build an image package through Dockerfile.

- \* True
- \* False

#### **NEW QUESTION 276**

Which of the following services does not support the management of HUAWEI CLOUD Container Platform?

- \* Application Service Network ASM
- \* Cloud container instance CCI
- \* Cloud Container Engine CCE
- \* Container Image Service SWR

#### **NEW QUESTION 277**

Huawei Cloud Distributed Cache DCS Service is a database service that provides Key-Value Cache service for application systems.

- \* True

- \* False

### NEW QUESTION 278

Regarding the Spakr calculation framework, which of the following statements is wrong?

- \* Only support SQL job query
- \* Spark is compatible with most of the functions and syntax of Hive
- \* Able to support batch job flow job graph calculation and other calculation types
- \* Is a high-performance memory-based distributed computing framework

### NEW QUESTION 279

Regarding the description of the HUAWEI CLOUD BigData Pro big data solution, which of the following statements is correct? (Multiple choice)

- \* Use EVS to store massive amounts of data
- \* Computing resources can be expanded individually
- \* The structure of separation of deposit and calculation
- \* Does not support Hadoop and other open-source human data software
- \* Use OBS to store massive amounts of data

### NEW QUESTION 280

HUAWEI CLOUD Distributed Message DMS service can provide asynchronous message queue service for applications.

Through the highly available message buffer queue, functions such as application decoupling, burst traffic processing, and third-party application integration can be realized.

- \* True
- \* False

### NEW QUESTION 281

The general principles of cloud architecture design are: (Multiple choice)

- \* Fault-tolerant design considering system failure
- \* The application uses loose coupling and stateless design
- \* Scalable and auto-scaling design
- \* Consider incorporating safety factors into design principles

### NEW QUESTION 282

The goal of smart park construction is to achieve full connectivity, full integration, and full intelligence in the park.

- \* True
- \* False

### NEW QUESTION 283

Which of the following ways can tenants find the reason for the slow query of the RDS database? (Multiple choice)

- \* After discovering slow SQL, judge whether the SQL statement writing and execution plan need to be optimized
- \* Through cloud monitoring, it is judged that there is a problem of excessive network throughput during the period of slow query response
- \* Use cloud monitoring to determine which SQL statements caused the problem during the slow query response period

- \* Use the slow query log to determine which SQL statements caused the problem during the slow query response period

#### **NEW QUESTION 284**

The probe technology of APM non-intrusive data collection is passive monitoring, which does not consume CPU and memory.

- \* True
- \* False

#### **NEW QUESTION 285**

In Huawei Cloud's three-dimensional O&M solution, O&M personnel only need to pay attention to whether the application functions are normal, and do not need to pay attention to user experience.

- \* True
- \* False

#### **NEW QUESTION 286**

Which aspects do the practice of architects include? (Multiple choice)

- \* Focus on the project implementation phase throughout the entire product development cycle
- \* Guided by strategic issues and focus on tactical issues
- \* Focus on high-level design and participate in the design of functional modules
- \* Take the overall direction and guide local implementation
