Verified NCA-5.20 dumps Q&As - 2023 Latest NCA-5.20 Download
Updated 100% Cover Real NCA-5.20 Exam Questions - 100% Pass Guarantee

Nutanix NCA-5.20 Exam Syllabus Topics:

TopicDetailsTopic 1- Demonstrate an understanding of how to use the Support Portal to create a ticket- Understand operational costs of the workloads- environmentTopic 2- Describe how to view storage space consumed by the Recycle Bin- Demonstrate an understanding of how to use Insights on the Support PortalTopic 3- Recognize Nutanix Distributed Storage Fabric (DSF) components- Describe the Replication Factor (RF) architectureTopic 4- Operate Nutanix Hybrid Cloud Solutions- Gather and provide information about workloadsTopic 5- Describe how to enable Data Protection on a VM- Discuss Prism's capabilities to group VMsTopic 6- Describe conducting cross cluster live migration with Leap- Describe how to automate the deployment of an applicationTopic 7- Describe the Nutanix Multicloud Acropolis Operating System- Determine which tools should be used to identify cluster capacity

QUESTION 54

Refer to the exhibit.

Controller VM
10.55.46.31
disconnected from
network

Description

Controller VM 10.55.46.31 is not reachable from Controller VM 10.55.46.29 in the last 3 attempts.

An administrator reviews the error in the exhibit then examines the state of the cluster. The administrator finds that the AHV host is up and functional, but the cluster capacity is low.

What will happen to the VMs on the host with this Controller VM?
* They will reboot onto other nodes in the cluster.
* They will shut down and be orphaned on the host.
* They will remain on the current host.
* They will be shut down unless protected by a Protection Policy.

QUESTION 55

An administrator needs to upgrade AOS for an air gapped cluster by using Prism Element.

Which two actions allow the administrator to perform the upgrade? Choose Two
* Extract the AOS binaries to the CVM
* Manually Upload Binaries to a local http server
* Manually Upload AOS binaries and metadata
* Use the LCM dark site Option Providing AOS Binaries

QUESTION 56

An Administrator has created a Volume Group for a specific VM on an AHV Cluster.
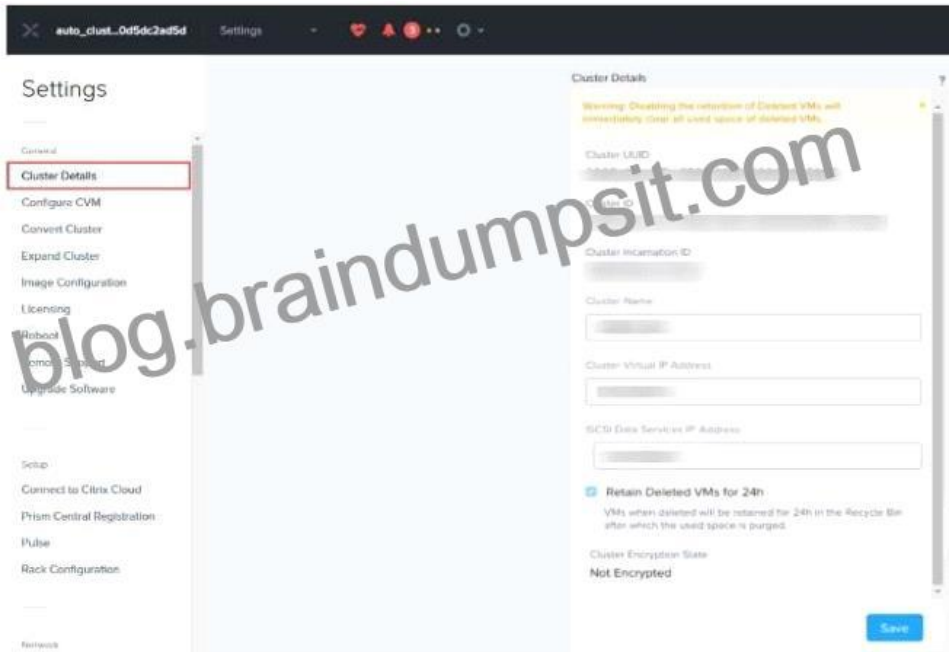

What is the next step required to user vDisk in the VM?
* Attach the Volume Group to the VM
* Configure CHAP Authentication
* Reboot the VMD. Bring the disk Online

QUESTION 57

How should an administrator enable the recycle bin on a nutanix cluster?
* Select the Enable Recycle Bin checkbox on the storage Overview page
* select Retain Deleted VMs for 8h in the cluster Details Page of the cluster setting
* Select the enable recycle bin checkbox in the configure CVM page of the cluster setting
* Select Retain Deleted VMs for 24h in the cluster details page of the cluster setting

QUESTION 58

What is required to schedule VM snapshots?

* Categories
* Consistency Group
* Volume Group
* Protection Domain

QUESTION 59

Refer to the exhibit.

The reference exhibit above is from a newly-created VM. When the administrator powers on the VM. GuestOS installation is not happening What is causing this issue?
* Network boot is happening
* The GuestOS installer is corrupted
* The SCSI disk is corrupted
* GuestOS installer is not loaded in the CD-ROM
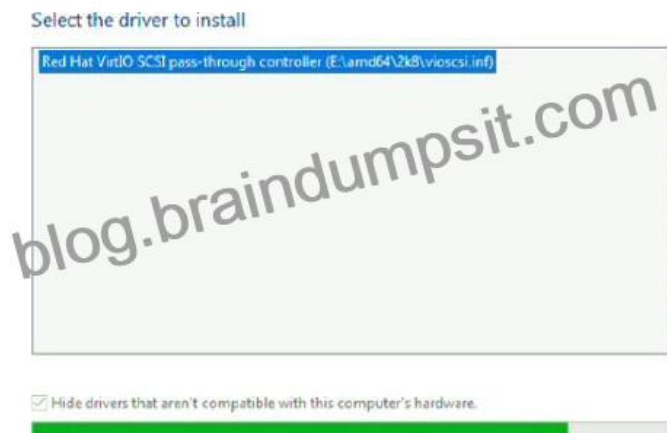

QUESTION 60

A mission critical application with four VMs have been deployed inside of a six-node Nutanix cluster. An alert is generated that a node in the cluster has failed and is no longer online. After the alert, two of the VMs reboot and come back online on another node.

Which feature, when configured, would have prevented the two VMs from rebooting?
* Host Anti-Affinity
* VM High Availability
* Host Affinity
* Protection Domain

QUESTION 61

Refer to the exhibit.

In which VM creation stage will the administrator see this dialog?
* Upgrading Nutanix Guest Tools
* During OS installation
* During image sysprep
* When powering on a UEFI VM

QUESTION 62

An administrator wants to view VMs with NGT Installed and Filter by their installed guest operating systems.

How can this task most quickly be accomplished within prism central?

* Use a pre-defined Prism Central report
* Create a custome Focus using the OS Column
* In the VM dashboard , filter by the nutanix Guest tools – OS field
* use the Prism central analysis Panel to create a pie chart by OSType

QUESTION 63

An administrator is experiencing an issue and needs to enable access for Nutanix support to login.

What should the administrator do to meet this requirement?

* Enable Remote Support from Prism Element
* Enable SSH
* Enable Pulse
* Enable Remote Support from Prism Central

QUESTION 64

An administrator needs to expand a Nutanix cluster that is tagging the network traffic at the CVM and AHV level. However, the administrator doesn’t remember the configured VLAN ID.

Which command can the administrator run to find the correct VLAN ID from the CVM?

* ifconfig
* manage-ovs
* acli
* ovs-vscl

QUESTION 65

Which Nutanix solution would provide an organization with a Cloud DR capability for their Nutanix cluster?

* Xi Frame
* Xi. Lap
* Beam
* Move

QUESTION 66

Which Nutanix component can be placed into a third site, in order to assist the primary and secondary sites during a failure event?

* Backup Server
* Witness VM
* Prism Central
* Controller VM

QUESTION 67

An administrator wants to deploy a virtual desktop solution on a Nutanix cluster and wants to use the existing production network segment. Due to security concerns, DHCP traffic is blocked on the upstream network switch.

How should the administrator proceed?
* Enable IPAM and configure an IP Address Pool
* Enable Nutanix Flow
* Enable DHCP on the TOR Switches
* Install and configure third-party DHCP Software

QUESTION 68

Which Deduplication technique could be used to increase the effective storage capacity of a cluster?
* Thin deduplication
* inline deduplication
* Near-line deduplication
* Post-process deduplication

QUESTION 69

What happens when an HDD fails within a Nutanix cluster?
* Data is reprotected automatically
* Data is unavailable until disk is replaced
* Data is lost and must be recovered
* Data is rebuilt to a hot spare disk

QUESTION 70

An administrator needs to have a view of current workloads sorted by vCPU count.

What should the administrator do to achieve this task?
* Create a New Dashboard adding the VMs widget
* Use the Group function in prism Central
* Create a new Analysis in Prism Element
* Export the VM list in CSV and use an external tool

QUESTION 71

A developer requests that a VM connects to a block device from an older ISCSI disk array, in order to support an application being transitioned to Nutanix.

What should the Nutanix administrator do to complete this task?
* Use Flits to map a network drive letter.
* Add the VM to the whitelist to allow it to access the block device.
* Use Volumes to add the device as a drive letter.
* Add the array to the whitelist to access the storage container directly.

QUESTION 72

What should an administrator do after a Protection Domain is migrated?
* Register Virtual Machines
* Restore Virtual Machines
* Mount datastores on Hosts

* Power on Virtual Machines
