QUESTION 26

An Avaya IP Office customer wants all incoming calls from the 212 area code to be routed to the Sales hunt group.

To program an Incoming Call Route (ICR) to meet this requirement, which two steps are needed? (Choose two.)

- * Edit the default ICR Destination to Sales hunt group
- * Enter 212 in the Incoming Number field
- * Select the Receptionist hunt group as the fallback extension
- * Add an ICR for Any Voice with the destination of the Sales hunt group
- * Enter 212 in the Incoming CLI field

QUESTION 27

You have added Power User licenses to a basic configured Avaya IP Office, but when you try to assign these licenses to users, they

are grayed out. The licenses are listed as Dormant in the license list.

What is causing this problem?

- * There is no Preferred or Server Edition License in your system
- * The licenses are for a different IP Office system
- * You have not completed a Save Configuration
- * The licenses are for a different product

QUESTION 28

On an Avaya IP Office, where can you check newly created extensions and users, and who created them?

- * Audit trail
- * Monitor
- * Manager
- * Extension form

QUESTION 29

Calls into an Avaya IP Office hunt group are queuing, but the hunt group callers are not getting the queuing messages.

Which feature would you check?

- * Enable Normalize Queue Length
- * Enable Announcements
- * Enable Queue Security
- * Enable Calls in Queue Transfer

QUESTION 30

Which two protocols does the Avaya Equinox® Client use to communicate with the Avaya IP Office? (Choose two.)

- * ALS
- * TLS
- * TCP
- * TAPI

QUESTION 31

On an Avaya IP Office, where can the administrator password be changed?

- * By selecting resources on SSA
- * By using CLI commands when access to DTE port
- * On the Security tab on System settings
- * On the Security settings

QUESTION 32

When creating Voicemail Pro Administrator types, which three types are available? (Choose three.)

- * Administrator
- * Standard
- * Basic
- * Manager
- * Advanced

QUESTION 33

On an Avaya IP Office solution, which protocol can be used as a method of sending system alarm notifications?

- * POP
- * MAPI
- * SMTP
- * IMAP

SMTP (Simple Mail Transfer Protocol) can be used as a method of sending system alarm notifications. SMTP is a standard protocol used for sending emails, and is the most common protocol used for sending system alarm notifications. POP (Post Office Protocol), MAPI (Messaging Application Programming Interface), and IMAP (Internet Message Access Protocol) are all protocols for receiving emails, and are not used for sending system alarm notifications.

QUESTION 34

An IP500 V2 control unit has 12 DS30 external expansion modules configured.

What is the maximum number of physical PRI trunk ports that can be configured?

- * 6
- * 3
- * 4
- * 8

QUESTION 35

When configuring an Avaya IP Office 500v2 Standard Edition, what would you expect to see when logging into Web Manager for the first time?

- * Password Change Prompt
- * Server IP Settings
- * Configuration Wizard
- * Security Settings

When configuring an Avaya IP Office 500v2 Standard Edition, you would expect to see the Configuration Wizard when logging into Web Manager for the first time. You would not expect to see a Password Change Prompt, Server IP Settings, or Security Settings when logging in for the first time.

QUESTION 36

Which two applications can be used to display all valid licenses on an Avaya IP Office solution? (Choose two.)

- * Manager
- * SSA
- * VM Pro

* Wireshark

QUESTION 37

In an IP Office configuration some users are granted individual user rights. How would an administrator notice these settings?

- * A banner on system configuration
- * Grayed out fields
- * A yellow padlock
- * A warning message on error pane

In an IP Office configuration, an administrator would notice individual user rights by seeing grayed out fields in the system configuration. A banner, a yellow padlock, and a warning message on the error pane are not indicators of individual user rights.

QUESTION 38

On an Avaya IP Office, where can you check newly created extensions and users, and who created them?

- * Manager
- * Audit trail
- * Monitor
- * Extension form

The Audit trail feature on an Avaya IP Office allows you to check newly created extensions and users, and who created them. This is according to the Avaya IP Office documentation (<https://downloads.avaya.com/css/P8/documents/100175020>).

QUESTION 39

When dialing a number on an Avaya IP Office telephone, which dialed number has the highest priority?

- * User Extension Number
- * Outgoing Line Group ID
- * Route ID
- * System Short Code

QUESTION 40

An Avaya IP Office customer with digital telephones uses their outbound digital lines at a capacity of 95%. Which capacity increase should be considered when planning for future growth?

- * The number of trunks
- * The number of users
- * The number of VCM channels
- * The number of hunt groups

QUESTION 41

A user wants to login to one-X® Portal to make and answer calls.

Using a web browser, what is the correct syntax to access one-X® Portal for Avaya IP Office server?

- * `https://<ip address>:8081/onexportal.html`
- * `https://<ip address>:8443/onexportal.html`
- * `https://<ip address>:7070/onexportal.html`
- * `https://<ip address>:8888/onexportal.html`

QUESTION 42

Which statement about the Manager Application for IP Office Server Edition is true?

- * Manager includes Voicemail Pro Client
- * Manager shows the status of all servers on one screen
- * Manager has been fully ported to Web Management
