C_SEN_2011 Exam Certification Details:

Level:AssociateExam:80 questionsSample Questions: SAP C_SEN_2011 Exam Sample Question Cut Score:64%Duration:180 mins

Q33. You open an outdated workarea without Manager connection in Producer of your on-premise edition of SAP Enable Now. How do you migrate the workarea to the current version?

- * You can use the Migrate function in the Tools menu.
- * You can use the Migrate function in the context menu of the Resource object.
- * You will be automatically prompted by a dialog to migrate.
- * You can use the Migrate function in the Workarea menu.

Q34. Which of the following are characteristics of a Desktop Assistant guided tour? Note: There are 2 correct answers to this question.

- * It offers step-by-step user support in an application.
- * Once started, it cannot be terminated by the end user.
- * It can provide a focus layer to draw the end users' attention to the relevant screen objects.
- * It can act as a robot by executing click-interaction on behalf of the user.

Q35. What is the main use of the Collector in book pages?

- * To create combinations and conditions to show or hide objects
- * To group several objects in one page
- * To collect user clicks in the book page for tracking mouse location
- * To collect a text variable

Q36. What is the purpose of the compound document generation function? Note: There are 3 correct answers to this question.

- * Merge different contents from a project into one document.
- * Merge different contents from a book into one document.
- * Merge SAP Enable Now contents and external contents into one document.
- * Merge different contents from a workarea into one document.
- * Merge different contents from a group into one document.

Q37. What are the best practices to create a recording? Note: There are 2 correct answers to this question.

- * Use the Quick Recording option for the best possible recording results.
- * Create a short storyboard with the steps to be recorded and the data to be used.
- * Activate the roll-over effects in the settings for a realistic recording.
- * Set up the application in the same way that the end user would use it.

Q38. You installed the SAP Enable Now Manager on premise on an Apache Tomcat server. What do you do next? Note: There are 2 correct answers to this question.

- * Change the values for the memory pool to match performance requirements.
- * Configure the server XML files to match security and performance requirements.

- * Send the Tomcat administrator password to SAP support.
- * Download and add the additional Java libraries that are needed for Manager, SQL option.

Q39. What are SAP best practices in a knowledge content production scenario? Note: There are 2 correct answers to this question.

- * Cover the entire end-to-end process in a single recording.
- * Keep the content granular and avoid redundancies.
- * Use metadata and tagging to keep it maintainable.
- * Use a separate workarea for each project.

Q40. You have exported one translation file. You see that one bubble object that you want to translate is NOT on the file. What should you do to have it on the exported file?

- * Activate the Interactive Mode option in the bubble properties.
- * Add `“_Translate”` to the end of the object name.
- * Deactivate the Show in Document option in the bubble properties.
- * Check the translate manually flag.
