

Apr-2023 Realistic RCDDv14 Exam Dumps with Accurate & Updated Questions [Q151-Q175]

Apr-2023 Realistic RCDDv14 Exam Dumps with Accurate & Updated Questions
RCDDv14 Exam Dumps - PDF Questions and Testing Engine

BICSI RCDDv14 Exam Syllabus Topics:

Topic 1- Review ICT bids- tenders for completeness to the Request for Proposal (RFP) response and compliance to the design
Topic 2- Produce ICT Bill of Materials- List of Materials (BOM- LOM) for the project stakeholders
Topic 3- Participate in the procurement of ICT materials to ensure the materials match the submittals- Define scope of ICT Design
Topic 4- Participate in additional bid- tender activities (i.e., bidders' conference, meetings, site walks) as required
Topic 5- Assess ICT current conditions as required to determine design solutions by conducting a site survey and reviewing record documentation
Topic 6- Design ICT telecommunication spaces to ensure standards compliance and- or client requirements are met
Topic 7- Produce ICT close-out documentation for the owner to provide the record documentation of the installation

Q151. In a design type Scope of Work (SoW) the ICT distribution designer is responsible for providing

- * stakeholder requirements
- * a safety plan
- * a user needs analysis
- * specific products and materials

Q152. After meeting with the program sponsor and stakeholders, the program manager is asked by the sponsor to accelerate the program to replace two legacy financial systems. The legacy systems are at risk of premature failure.

What should the program manager do next?

- * Accelerate the projects and components of the program that replace the two legacy systems
- * Analyze the impact of accelerating the program, and present the pros and cons to the program sponsor
- * Identify the parts of the program that need to be accelerated and, if it is cost effective and increases benefits realization, implement the change
- * Create several "what-if"; scenarios of alternatives to present to the program sponsor

Q153. An organization initiates an innovation program to deliver exceptional performance and benefits. After the program transition plan is in place and the implementation of a benefits sustainment plan starts the program manager discovers the program may be shut down due to lack of funding.

To ensure continued funding for the program, what should the program manager do next?

- * Complete the benefits sustainment plan and update the benefits register
- * Present a revised ROI to the program sponsors based on the remaining investment.
- * Conduct a cost-benefit analysis to ensure the program sponsors understand the program's long-term benefits
- * Review the program business case and the program's strategic alignment and long-term benefits with the program governance board.

Q154. When sizing an underground entrance facility, what is the MINIMUM amount of 103 metric designator conduits (4 trade size) that should be specified by the ICT distribution design?

- * 3 Conduits
- * 4 Conduits
- * 6 Conduits
- * 2 Conduits

Q155. When responding to a submittal that has been rejected and/or has comments written by a reviewer, the ICT distribution designer may need to perform which two of the following actions? (Select two options.)

- * Request a Change Order from the client for the extra work performed.
- * Document the reviewer's status and/or comments
- * Review the contract requirements and revise the submittal to comply with these requirements
- * Request a variance from the contract requirements from the client.
- * Submit an alternate product in lieu of one that was previously submitted, even if it does not meet all of the contract requirements

Q156. The program manager must define the program and understand the organization's target market and customer needs. What should the program manager do first?

- * Brainstorm with the program team to decide on the definitions of the target market.
- * Meet with peers to identify the company's competitors in the target market
- * Meet with the project managers to identify the target market
- * Work with the program sponsor to assess the needs of the target market

Q157. Program manager B leaves the program and program manager A takes over the program responsibilities Program manager A wants to ensure that all expected benefits of the program are realized.

What is used to assess the program cost/benefit justification?

- * Program charter
- * Benefits management plan

- * Program business case
- * Program scope statement

Q158. Which type of protection for electrical power stations provide isolation against a rise in potential of station ground and also provide drainage protection against longitudinally-induced voltages?

- * Isolating transformers
- * Neutralizing transformers
- * Mutual drainage reactors
- * Unit-type neutralizing transformers
- * 2-winding neutralizing transformers

Q159. Coupling with electrical circuits can create inductive interference to telecommunications facilities. Which of the following can decrease the coupling effect?

- * Decrease the exposure length
- * Make sure that the single-phase components add in phase
- * Decrease the physical separation
- * Increase the earth resistance

Q160. A program manager prepares the program for review to secure funding by senior management. Which of the following must the program manager identify when creating the program charter?

- * Milestone dates, budget, and staff details that support it
- * Assumptions incorporated into the benefits management plan
- * Process within the organization that will be needed to deliver the product
- * Key decision makers or stakeholders in the program and their expectations and interests

Q161. Status information, including program and component status, cost information, risk analysis and other relevant information, is provided in which of the following?

- * Program performance report
- * Communications management plan
- * Communications log updates
- * Information gathering and retrieval system

Q162. A program to implement a company's new system is nearing completion and the program manager attempts to close the program. However, despite training provided to the operational staff on the new system, there is concern that the defined expected benefits will not be fully realized.

To prevent this concern in the future, which of the following should occur?

- * Collaboration with the operational staff to develop the benefits sustainment plan
- * Communication of the new capabilities' benefits to the operational staff
- * Development and execution of a benefits transition plan to prepare the operational areas
- * Identification of the risk in the program risk register and development of a plan to address the risk

Q163. The program manager of a multinational program must reconcile data including subject matter experts' labor hour estimates and other direct resource hour estimates. In addition the program manager must prepare the cash flow analysis. Which of the following should be considered to get a baseline budget?

- * Currency exchange rates
- * Component cost estimates
- * Baseline schedule
- * Program payment schedules

Q164. A component protect of a multiyear program delivers all expected products and services as anticipated. The component project manager obtains approvals from the stakeholders and transitions the benefits to operations What should the program manager do next?

- * Reassign the component project manager to another component project or activity
- * Verify that the benefits were delivered and authorize component project closure
- * Conduct a program audit to confirm that the component protect is complete
- * Keep the component project open until the program benefits are realized

Q165. A global enterprise resource planning (ERP) program's scope includes designing and building a global template. Plans include a pilot implementation project to validate the template, to be followed by several rollout projects. During the build of the global template, a new government regulation mandates implementation of a goods and services tax (GST).

What should the program manager update?

- * Program communications management plan
- * Benefits management plan
- * Stakeholder engagement plan
- * Benefits transition plan

Q166. An organization must accelerate a product to market. The program manager completes the preliminary program slaps and holds a kick-off meeting Project managers submit their preliminary schedules for review What should the program manager do next?

- * Assign resources lo the schedule and report the revised delivery date to the project managers
- * Work with the project managers to refine the project schedules and deliverables to align with the program milestones
- * Revise the project schedules to meet the program schedule and communicate to stakeholders
- * Integrate the project schedules into the program schedule and report the revised delivery date to the project managers

Q167. A program manager needs to establish direction and identity the essential aspects of a program. In addition, they must ensure that the context and framework of the program are properly defined assessed and documented Which document will be created to support this activity?

- * Program resource management plan
- * Program management plan
- * Program master schedule
- * Program scope statement

Q168. A company CEO meets with key customers to learn how they can be better served After discovering that some executive team members disagree with each other, the CEO asks the program management office (PWO) to develop a program to better serve key customers based on their strategic importance to the company's long-term goals.

What should the program manager do to establish and successfully manage the program's direction?

- * Create a program strategy to obtain the required funding from the portfolio decision team
- * Develop and foster relationships with stakeholders to improve communication
- * Conduct stakeholder interviews to address their concerns and expectations
- * Identify a list of projects, and then assign them suitable project managers

Q169. A new program manager joins a mufti-year program that has been underway for almost a year. During interviews, several stakeholders state that they do not understand how the program will help the organization At the next stakeholder meeting, what should the program manager present to address their concerns?

- * Program charter
- * Program scope assessment results
- * Business case and program roadmap
- * Expected program benefits management plan

Q170. In which phase of the protect design would an ICT distribution designer be expected to prepare preliminary cost estimates?

- * CD
- * SD
- * PD
- * DD

Q171. In specifying labels and pruned tags that meet Underwriters Laboratories (UL) 969 Standard, marking and labeling systems are provided following the listed metrics. Which two of the following are REQUIRED for the UL standard? (Select two options.)

- * Adhesion test
- * Thickness test
- * Texture test
- * Durability test
- * Visual inspection

Q172. A component is scheduled to close at the end of the week. What should the program manager verify prior to allowing the component to close?

- * The component has released resources to meet program objectives
- * The component has met the quality requirements to meet program objectives
- * The component has met the schedule requirements to meet program objectives
- * The component has met the benefits realization criteria to meet program objectives

Q173. In a RFI, an ICT distribution designer instructs the contractor to test all the fibers in a PON installation. Which of the following testing requirements does the designer include?

- * Uni-directional 850 nm and 1300 nm
- * Bi-directional 850 nm and 1300 nm
- * Uni-directional 1310 nm and 1550 nm
- * Bi-directional 1310 nm and 1550 nm

Q174. A company is evaluating the implementation of enterprise resource planning (ERP) software.

The program manager performs an analysis to confirm the program's feasibility. What other important step should the program manager complete?

- * Development of the program's vision statement
- * Review of strategic goals against any external environmental factors
- * Identification and documentation of the initial risks for ERP software implementation
- * Mapping of the financial benefits to the ERP software's functionality

Q175. A program manager has been assigned to a program that has received approval of the program charter and for which a stakeholder register has been prepared. During stakeholder engagement planning the program manager should consider which of the following stakeholder aspects?

- * Attitude about the program external political position and technical expertise
- * Level of influence and participation and attitude about the program
- * Expectation of program benefits, level of influence, and organizational culture
- * Level of support/opposition technical expertise, and organizational culture
