- * Virtualization

- * Artificial intelligence
- * Blockchain
- * Augmented reality

NEW QUESTION 38

What is a good indication of a sales opportunity for an Aruba Mobile First Network?

- * Developers need to accelerate their development cycles for mobile apps.
- * Clients are asking for services that the business does not currently offer.
- * IT is struggling to keep up with the amount of data that the business is generating.
- * The customer needs to streamline the onboarding process for personal devices.

NEW QUESTION 39

What is one way that HPE Synergy helps customers reduce costs?

- * It reduces over-provisioning by allowing the redefinition of resources for current needs.
- * It allows customers to shift from a traditional workplace to a more efficient open office.
- * It permits customers to move expensive analytics away from the core to the edge.
- * It helps customers identify the legacy hardware that consumes the most power.

NEW QUESTION 40

When gathering and analyzing customer business and technical requirements for an HPE Edge-to-Cloud solution, which of the following is a key consideration?

- * Ensuring that the solution is compatible with the latest technology trends
- * Determining the budget for the project before assessing requirements
- * Identifying the stakeholders and their specific needs and concerns
- * Avoiding any customization to minimize complexity

NEW QUESTION 41

Which key benefit of HPE Synergy helps to distinguish HPE from the competition?

- * the ability to support virtualized workloads from leading vendors such as VMware
- * the ability to dynamically deploy location-based service apps to customer mobile devices
- * the ability to integrate IoT devices into the network with minimal security risks
- * the ability to independently scale compute and storage resources, and redefine them dynamically

NEW QUESTION 42

Why should HPE partners understand the advantages that HPE Financial Services offer?

- * By 2019 a majority of companies will be using leasing options.
- * In 2017 a majority of companies moved their services from private cloud to public cloud.
- * By 2018 a majority of companies will increase their IT budgets by 25%.
- * By 2021 a majority of IT expenditures will be based on pay-as-you-go and pay-per use models.

NEW QUESTION 43

What is one way HPE and Aruba solutions help to enhance security?

- * They confine data and memory-driven computing to the network core.
- * They build a silicon root of trust into IoT device hardware.

- * They can onboard, monitor, and apply policies to BYOD and IoT devices.
- * They ensure that archived data is encrypted and compliant with regulations.

NEW QUESTION 44

What is a key difference between a public cloud and a private cloud?

- * Public clouds are owned by individual companies, while private clouds are owned by the government
- * Public clouds are hosted on-premises, while private clouds are hosted off-premises
- * Public clouds are open to the general public, while private clouds are only accessible to specific users
- * Public clouds are designed for small-scale operations, while private clouds are designed for large-scale operations

NEW QUESTION 45

What is one way Aruba solutions enhance unified communications (UC) and collaboration?

- * by redirecting compute-intensive apps to wired connections
- * by giving mobile devices highest priority on the network
- * by providing low latency networks with end-to-end quality of service
- * by ensuring all forms of traffic are treated in the same way

NEW QUESTION 46

How should you discuss digital transformation with your customers?

- * Downplay the importance of digital transformation, since it is a trend that is not as relevant as it was a year ago.
- * Focus on the way public cloud solutions can speed delivery of services and applications.
- * Help them elevate digital transformation from an incubation project to a business imperative.
- * Explain that digital transformation is just a buzzword and that they should focus on the New Economy instead.

NEW QUESTION 47

What is one way companies are employing Industrial IoT to become more efficient?

- * using intelligent sensors to track inventory and shipments
- * using drones to monitor vehicles coming into and out of their facilities
- * installing smart entertainment systems to entice employees to spend more time at work
- * providing employees with fitness trackers to ensure employees are active

NEW QUESTION 48

A customer tells you they want to modernize IT. Which characteristic indicates a potential HPE Intelligent Edge customer?

- * The customer wants to modernize mobile endpoints.
- * The customer wants to modernize applications.
- * The customer wants to modernize the data center.
- * The customer wants to modernize IT operations.

NEW QUESTION 49

Why is it important to meet with other influential decision makers in a company?

- * It allows you to present technical information about products to executives outside of IT.
- * Your credibility increases when you are able to converse effectively with leaders in business, finance, and technical roles.
- * Because most companies are moving from an OPEX to a CAPEX funding model, top executives need to approve large purchases associated with IT projects.

- * As more companies move to public cloud, the IT manager role is no longer involved in IT purchases.

NEW QUESTION 50

Which customer would be a good candidate for HPE Flexible Capacity?

- * a company that is purchasing some services in public cloud but is concerned about public cloud security
- * a company that recently updated their data center and anticipates no further updates for at least a year
- * a company that does not think pay-as-you-go funding options ultimately benefit companies and that wants to maintain a CAPEX model
- * a small company that wants to move from a small on-premises network to public cloud

NEW QUESTION 51

Which comment indicates a customer could benefit from an HPE Intelligent Workspace solution?

- * “We have implemented an open floor plan and collaboration tools but are not seeing the expected results.”
- * “We want to enhance our mobile applications in order to provide special offers to our best customers.”
- * “We are placing limits on the use of employees’ personal devices in the workplace.”
- * “We cannot keep up with the number of requests for guests to join our network.”

NEW QUESTION 52

When identifying key customer business, technical, and system requirements for an HPE Edge-to-Cloud solution, which of the following is a key activity?

- * Documenting every possible requirement, regardless of its relevance to the solution
- * Gathering requirements from a single stakeholder to avoid conflicting inputs
- * Prioritizing requirements based on their potential impact on the solution outcomes
- * Avoiding any requirements that are difficult to implement

NEW QUESTION 53

Which of the following is a key activity when analyzing customer business and technical requirements for an HPE Edge-to-Cloud solution?

- * Identifying the solution architecture before gathering requirements
- * Documenting every possible requirement, regardless of its relevance to the solution
- * Prioritizing requirements based on their potential impact on the solution outcomes
- * Avoiding any customization to minimize complexity

NEW QUESTION 54

According to IDC, what is the attitude of most Global 500 companies toward digital transformation?

- * They are skeptical that it will provide a return on investment.
- * They have completed their digital transformation products and are turning their attention to the next trend.
- * They are committed to it and have formed dedicated digital transformation teams.
- * They are waiting to see if their competitors are successful in implementing it.

HP HPE0-V28 (Delta - HPE Edge-to-Cloud Solutions) certification exam is designed for IT professionals who want to validate their skills and knowledge in implementing HPE edge-to-cloud solutions. HPE0-V28 exam tests candidates on their ability to design, deploy, manage, and troubleshoot HPE solutions that connect edge devices, data centers, and cloud services. Delta - HPE Edge-to-Cloud Solutions certification is ideal for IT professionals who work with HPE solutions and want to advance their career by demonstrating their expertise in edge-to-cloud technologies.
