# Passing Huawei H13-311_V3.0 Exam Using 2023 Practice Tests [Q197-Q214

Passing Huawei H13-311_V3.0 Exam Using 2023 Practice Tests H13-311_V3.0 Study Guide Brilliant H13-311_V3.0 Exam Dumps PDF NO.197 Which of the following is not an application of image recognition services?

* Target Detection
* Smart photo album
* Scene analysis
* Speech synthesis

NO.198 What is not a deep learning algorithm?

* self-encoder
* convolutional neural network
* recurrent neural network
* support vector machine

NO.199 What are the service categories included in Huawei Cloud EI Enterprise Intelligence?

* EI visual cognition
* EI online game
* EI speech semantic
* EI industry scenario

NO.200 Which of the following are the characteristics of the Python language? {Multiple choice)

* Explanatory
* Process oriented
* Object-oriented
* Dynamic data type

NO.201 Which of the following is HUAWEI HiAI Foundation Function of the module?

* App integrated
* Let the service actively find users
* Quickly convert and migrate existing models
* According to user needs, push services at the right time and at the right time

NO.202 Which of the following conditions is not a condition to be satisfied by the n-fold Bernoulli test?

* each test is repeated under the same conditions
* There are only two possible outcomes per trial, that is, event A occurs and event A does not occur
* each test itself must follow a normal distribution
* the results of each test are independent of each other

NO.203 The training error will continue to decrease as the model complexity increases.

* TRUE
* FALSE

NO.204 Which of the following products is related to artificial intelligence? (Multiple Choice)

* Alpha Go
* Self-driving
* Voice input
* Huawei Mate mobile phone

NO.205 Which of the following is not an artificial intelligence school?

* Symbolism
* StatJst1caltsm
* Behaviorism
* Connectionism

NO.206 Which of the following are included in the application scenarios ofTensorflow? (Multiple choice}

* Speech recognition
* Face recognition
* Image style changes
* Autopilot

NO.207 In TensorFlow, data is represented in the form of tensors and calculation charts.

* True
* False

NO.208 Which of the following is not a specific technology of artificial intelligence?

* Knowledge map
* Machine translation
* Riemann geometry
* Semantic understanding

NO.209 What are the regularizations in deep learning? (Multiple Choice)
* L1 norm. L2 norm
* Data set enhancement
* Integration method
* Dropout

NO.210 What are the elements of artificial intelligence?
* algorithm
* computing power
* data
* scene

NO.211 What operating systems does Python support? (Multiple Choice)
* DOS
* Linux
* Mac OSX
* Windows

NO.212 Artificial intelligence at this stage is still in the weak artificial intelligence stage.
* TRUE
* FALSE

NO.213 Deep learning neural network training requires a lot of matrix calculations. Generally, we need to use hardware to enable the computer to have parallel computing capabilities. The following hardware devices can provide parallel computing capabilities.:
* Motherboard
* RAM
* GPU
* CPU

NO.214 Deep learning is a branch of machine learning.
* True
* False
