Pass Huawei H12-111_V3.0 exam - questions - convert Tets Engine to PDF

Huawei H12-111_V3.0 (HCIA-IoT V3.0) Certification Exam is a challenging exam that requires a deep understanding of IoT concepts and technologies. Professionals who are preparing for H12-111_V3.0 exam should have a strong foundation in IoT fundamentals, as well as experience in designing and developing IoT solutions. They should also have a good understanding of networking, security, and data management.

Huawei H12-111_V3.0 (HCIA-IoT V3.0) Certification Exam is an essential certification for professionals who are interested in pursuing a career in IoT. HCIA-IoT V3.0 certification is globally recognized and highly valued by employers, making it a valuable asset for professionals in the field. Professionals who pass H12-111_V3.0 exam will be able to demonstrate their expertise in IoT and will be well-equipped to meet the demands of the ever-evolving IoT industry.

QUESTION 68

eLTE-loT module through the () interface to achieve integration with third-party devices?
* USB
* modbus
* Serial port
* PCle

QUESTION 69

Are the following application layers of the Internet of Vehicles ()? (Multiple choice).
* UBI
* Vehicle anti-theft
* QOS Coverage
* Remote diagnosis

QUESTION 70

Does the LiteOS open API interface not have the following () functions?
* Compatible with Linux
* Easy to understand the kernel
* Mask the underlying differences
* The interface is designed to be friendly

QUESTION 71

What is the module that provides the terminal access protocol adaptation function ()?
* CLG
* loCM
* API GW
* MangoDB

QUESTION 72

Among the following options, the problem that is not a smart manhole cover can deal with is ()?
* The manhole cover is missing
* The communication cA, Ble is missing
* Personnel go down the well without permission
* Pavement flooding

QUESTION 73

What are the plug-ins on the home smart gateway ()? (Multiple choice)
* Driver
* Agent .
* Protocol plugins
* Application plugin

QUESTION 74

The AR501L1Rc model device only supports the switching function and does not have a dimming function.

* Correct
* Error

QUESTION 75

The main role of the ioT connection management platform is ()? (Multiple choice)
* Open terminal access .
* Open business application extension .
* Safe and reliA, Ble
* Industry applications

QUESTION 76

The first step in oceanConnect's business process is ()?
* Southbound message escalation process
* Business provisioning process
* Northbound Registration Process
* Southbound registration process

QUESTION 77

What are the following () included in the N frameworks of Huawei LiteOS "1+N"? (Multiple choice).
* Interconnection Framework
* Sensing framework
* Running the engine
* Security Framework

QUESTION 78

Among the following options, what are the advantages of static memory that are not part of Huawei LiteOS memory management
()?
* On-demand allocation
* No fragmentation
* High distribution efficiency
* High release efficiency

QUESTION 79

eLTE-loT is used as an electric AMI meter reading scenario, can each cell support () meter access?
* 100
* 500
* 1000
* 10000

QUESTION 80

Device (gateway and sensor) management is () a feature of portal?
* SP Portal .
* Operation
* Service Issuance Portal

* OSS manages Portal

QUESTION 81

The meter reading protocols mainly used in Huawei's power IoT solution include ()? (included)
* DLMS .
* Modbus .
* JSON
* protobuf

QUESTION 82

If the data portion of the AT command that needs to be sent is 010203405, the length should be set to ()?
* 5
* 10
* 40
* None of the A, Bove is true

QUESTION 83

Huawei IoT Gateway Zigbee physical layer technology adopts the following () standards?
* IEC104
* IEEE 802.15.4 .
* IEC103
* IEEE 802.15.1

QUESTION 84

The JS virtual machine built into LiteOS is designed and optimized for highly resource-constrained devices.
* Correct
* Error

QUESTION 85

The maximum coupling line loss (MCL) for NB-loT is ()Db?
* 144
* 154
* 164 .
* 174

QUESTION 86

In the field of smart home, smart ONT can also be based on USB Dongle extension, providing a variety of basic access capA, Bilities for the Internet of Things, including Zig-bee/Z-wave. Through the unification of access standards, it will be possible to integrate smart devices from different manufacturers.
* Correct
* Error

QUESTION 87

After the third-party platform successfully registers the serial number of the in-vehicle device with the OceanConnect platform, OceanConnect will generate a deviceld for the device in the platform.

* Correct
* Error

QUESTION 88

The description of the Northbound app registration direct connection device, incorrect is ()?

* When registering a direct-attached device, nodeid recommends using the MAC address of the device
* Register direct-attached device interface, which can be used not only to register direct-attached devices, but also to register non-direct-attached devices .
* When registering a direct-attached device, there is no timeout setting if timeout is set to 0
* After registering a direct-attached device interface call, if the binding is not completed within the timeout range, the device registration will be invalidated

QUESTION 89

Does eLTE-loT follow () technical standards?

* B-Trunc
* 3GPP NB-loT
* LIT
* Emtc

QUESTION 90

Among the following options, the main features of Huawei's lighting IoT solution are ()? (Multiple choice)

* On-demand lighting to reduce the energy consumption of street lamps
* Efficient and low-cost connection of massive street lights
* Reduced installation and maintenance costs
* Guarantee the reliA, Ble operation of the system

QUESTION 91

Among the following options, which belong to the difficulties currently encountered by the Internet of Things ( )? (Multiple choice)

* Multi-sensor collA, Borative management complex
* High performance and power consumption requirements in video scenarios
* Complex and diverse communication protocols between terminals
* Inefficient and difficult to develop voice programming

QUESTION 92

Ar501L1Rc model device off status indicator is ()?

* Zi Guang
* Red light
* No LED
* Yellow light
